LEADER IN SHIPPING & LOGISTICS

[msc.com](https://www.msc.com)

Founded by Captain Gianluigi Aponte, MSC Mediterranean Shipping Company (MSC) has been headquartered in Geneva, Switzerland, since 1978. World leader in shipping and logistics, MSC operates in 155 countries across five continents, where we provide timely delivery of goods and services to local communities, customers and business partners. Our international headquarters supervise a worldwide network of offices with each having responsibility for commercial and operational activities in their respective countries.

Over the years, MSC has invested in several initiatives, such as operational strategic alliances, and has further diversified its business-related activities.

We have seen exponential growth in terms of both volume and fleet capacity, and now serve millions of customers globally, with a 365-days-a-year operation. Today, our focus remains true to our roots, building and retaining long-term trusted partnerships with customers of all size and scale.

WHY MSC?

WE DELIVER

As a leader in transport and logistics, MSC reaches every corner of the globe.

We bring your cargo safely and quickly from A to B, using tailor-made end-to-end transport solutions across road, rail and sea.

WE SUPPORT

We pride ourselves on offering the best customer service in the industry, and we make every effort to meet your individual needs and build long-term partnerships. We are known for our local and global expertise, professionalism, and top health and safety record.

WE INNOVATE

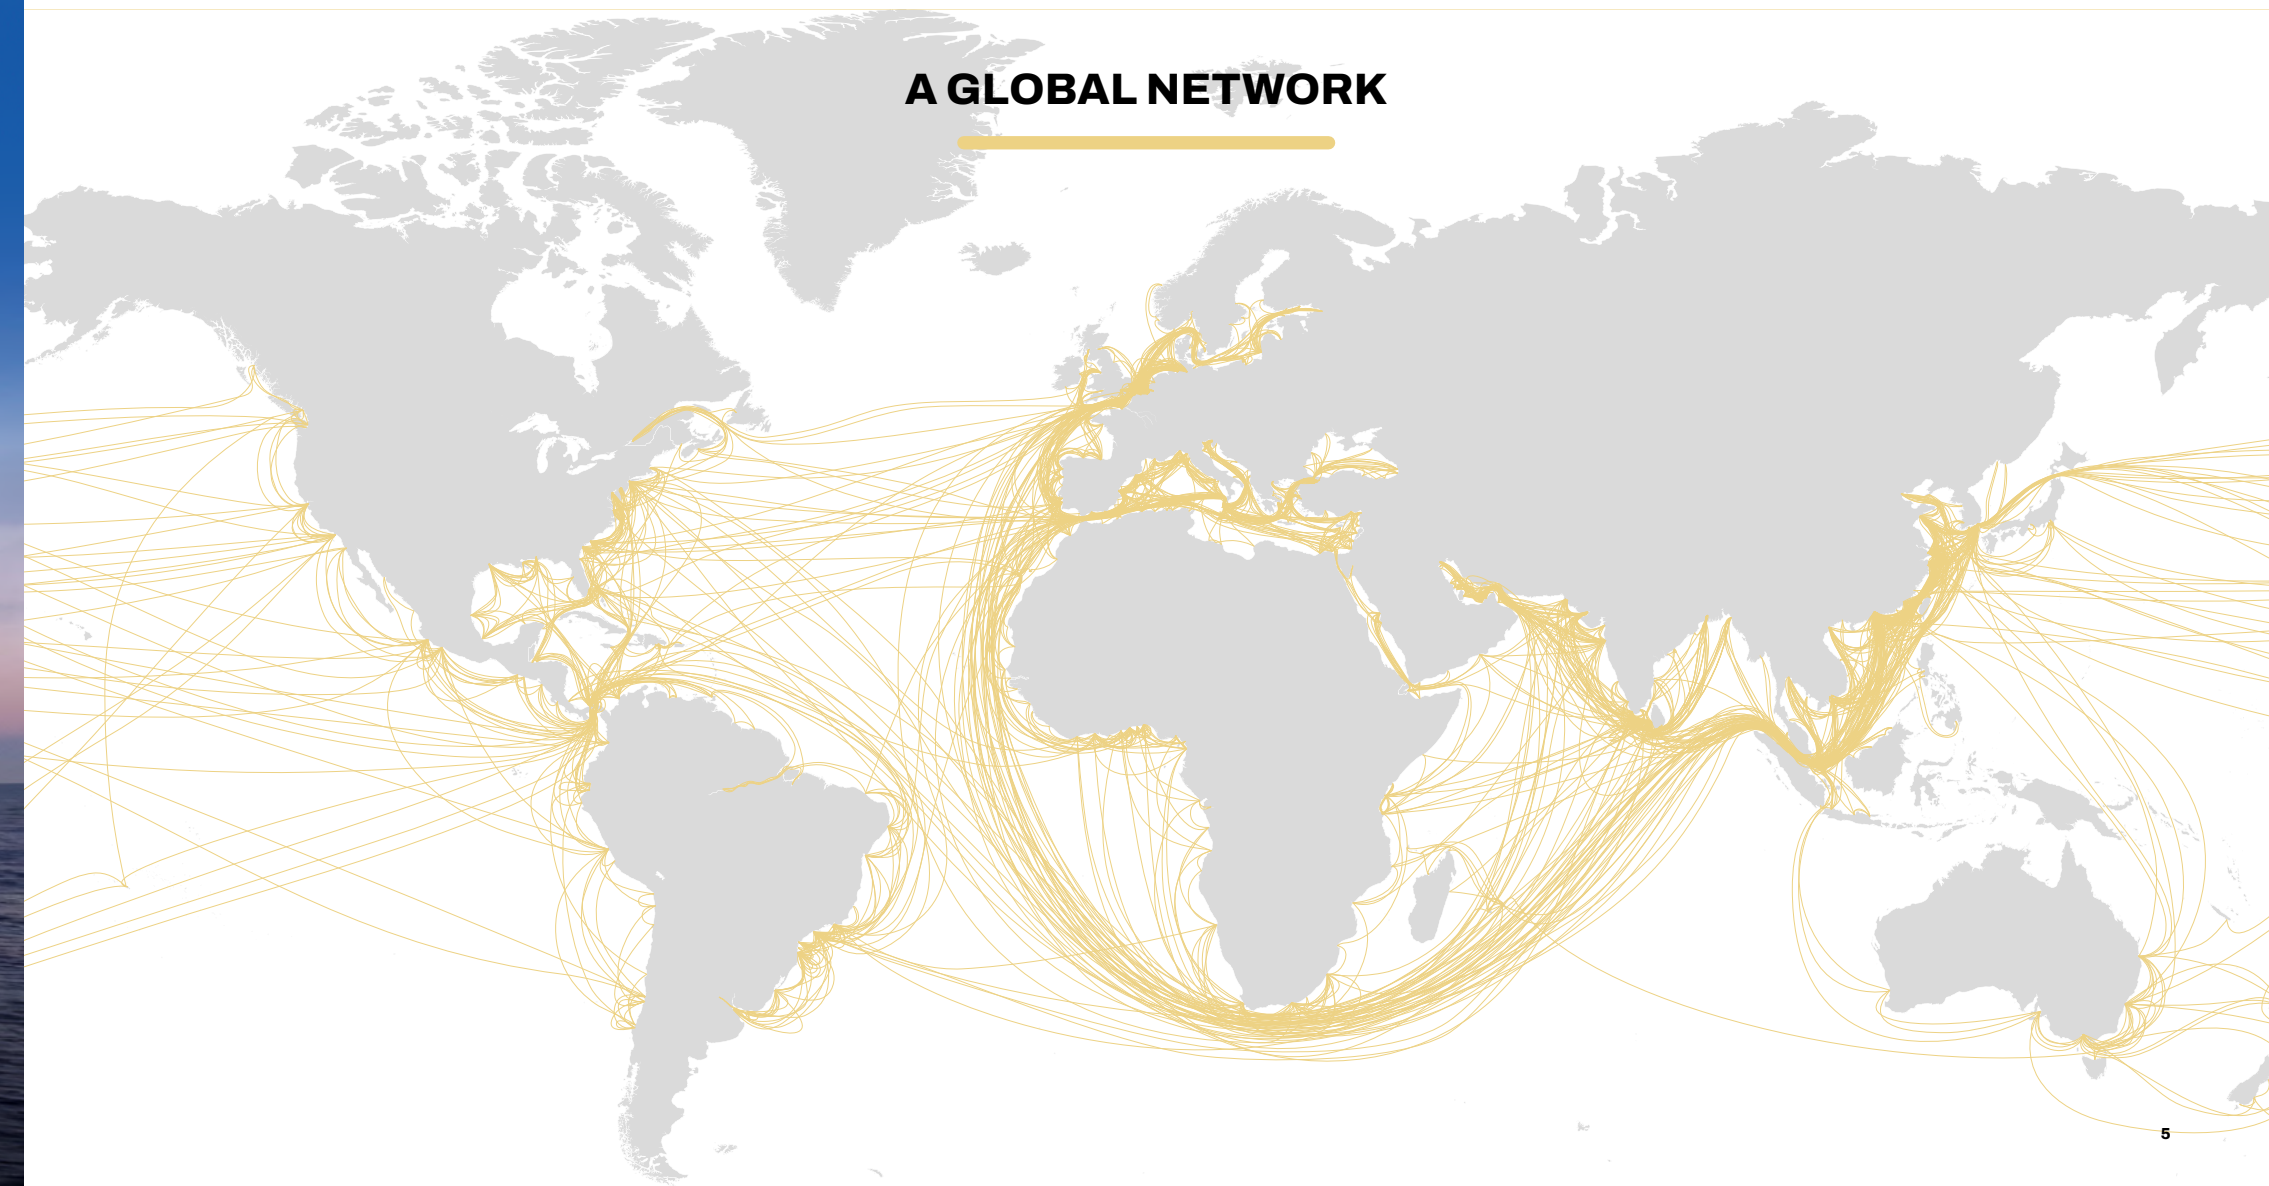

Our fleet is among the most modern in the world, and we invest in state-of-the-art equipment and technology to transport your cargo securely and efficiently to its destination.

WE CARE

As a key player in global supply chains, we remain fully committed to contributing to the realisation of the United Nations 2030 Agenda for Sustainable Development. At MSC, sustainability is a strategic imperative and, above all, a business priority. More on [msc.com/sustainability](https://www.msc.com/sustainability)

A GLOBAL NETWORK

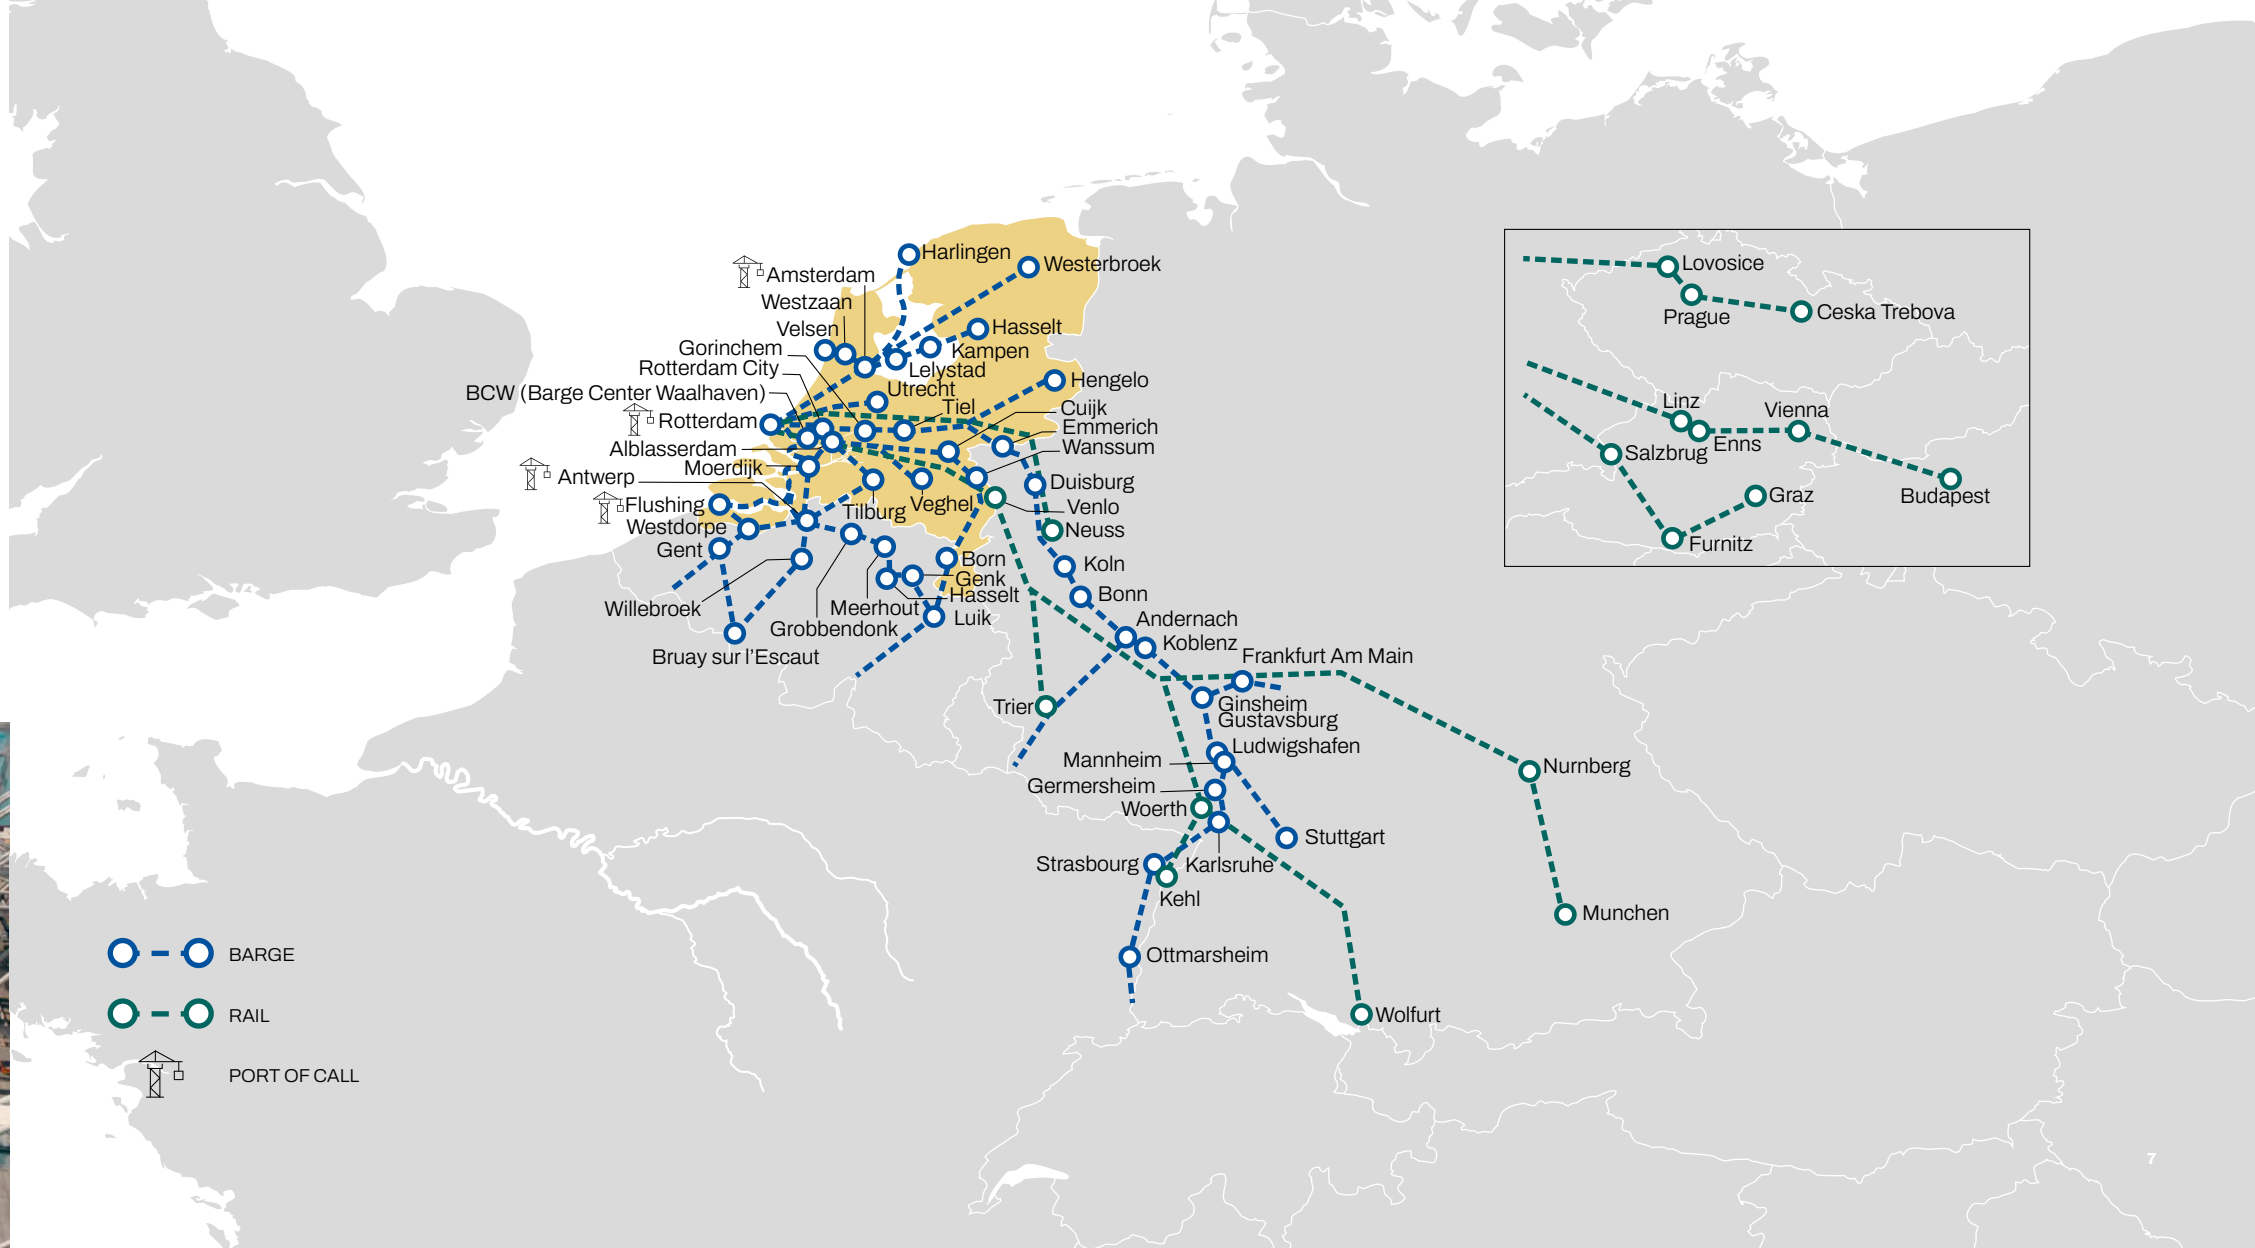

THE NETHERLANDS

WHERE GLOBAL TRADE MEETS SEAMLESS CONNECTIVITY

Rooted in a country **built on trade and the sea**, the Netherlands has connected nations across the world for nearly seven centuries. Today, it is home to a leading European port, standing as a symbol of Dutch innovation and collaboration.

With over **400 dedicated professionals**, MSC Netherlands brings the values of a **family-owned company** to global trade. We build trust, foster long-term partnerships, and deliver solutions that move your business forward — both locally and globally.

Our services extend beyond the cargo terminal. MSC moves your cargo across the Netherlands to more than **20 key inland locations** and beyond, seamlessly linking ports, cities, and inland hubs through an extensive intermodal network. By barge, rail, and road, we ensure efficient, flexible, and sustainable connections — from **origin to destination**.

TRUCK SOLUTIONS

We provide fully integrated **door-to-door** delivery solutions for both dry and reefer cargo, seamlessly connecting deepsea terminals to your destination. Our road transport services are complemented by the flexibility to incorporate rail or barge whenever required, ensuring efficiency and reliability throughout your supply chain.

Whether you require direct door delivery for imports — and vice versa for export — via all-road transport, we ensure smooth and cost-effective cargo movement at every stage.

MSC TRUCKING BENEFITS

- Dedicated trucking solutions for all your road transport needs
- Multimodal options combining truck with barge or rail, tailored to your business
- Expert support to design the most efficient setup and optimize your cargo flow from origin to destination
- When booking trucking via MSC, Demurrage & Detention (D&D) Free Time can be placed under MSC's supervision upon request, giving you added oversight and peace of mind.

From terminal to warehouse—or the other way around—we offer customized transport configurations. Whether you choose direct trucking or a multimodal solution, we adapt to your needs to ensure your supply chain runs smoothly.

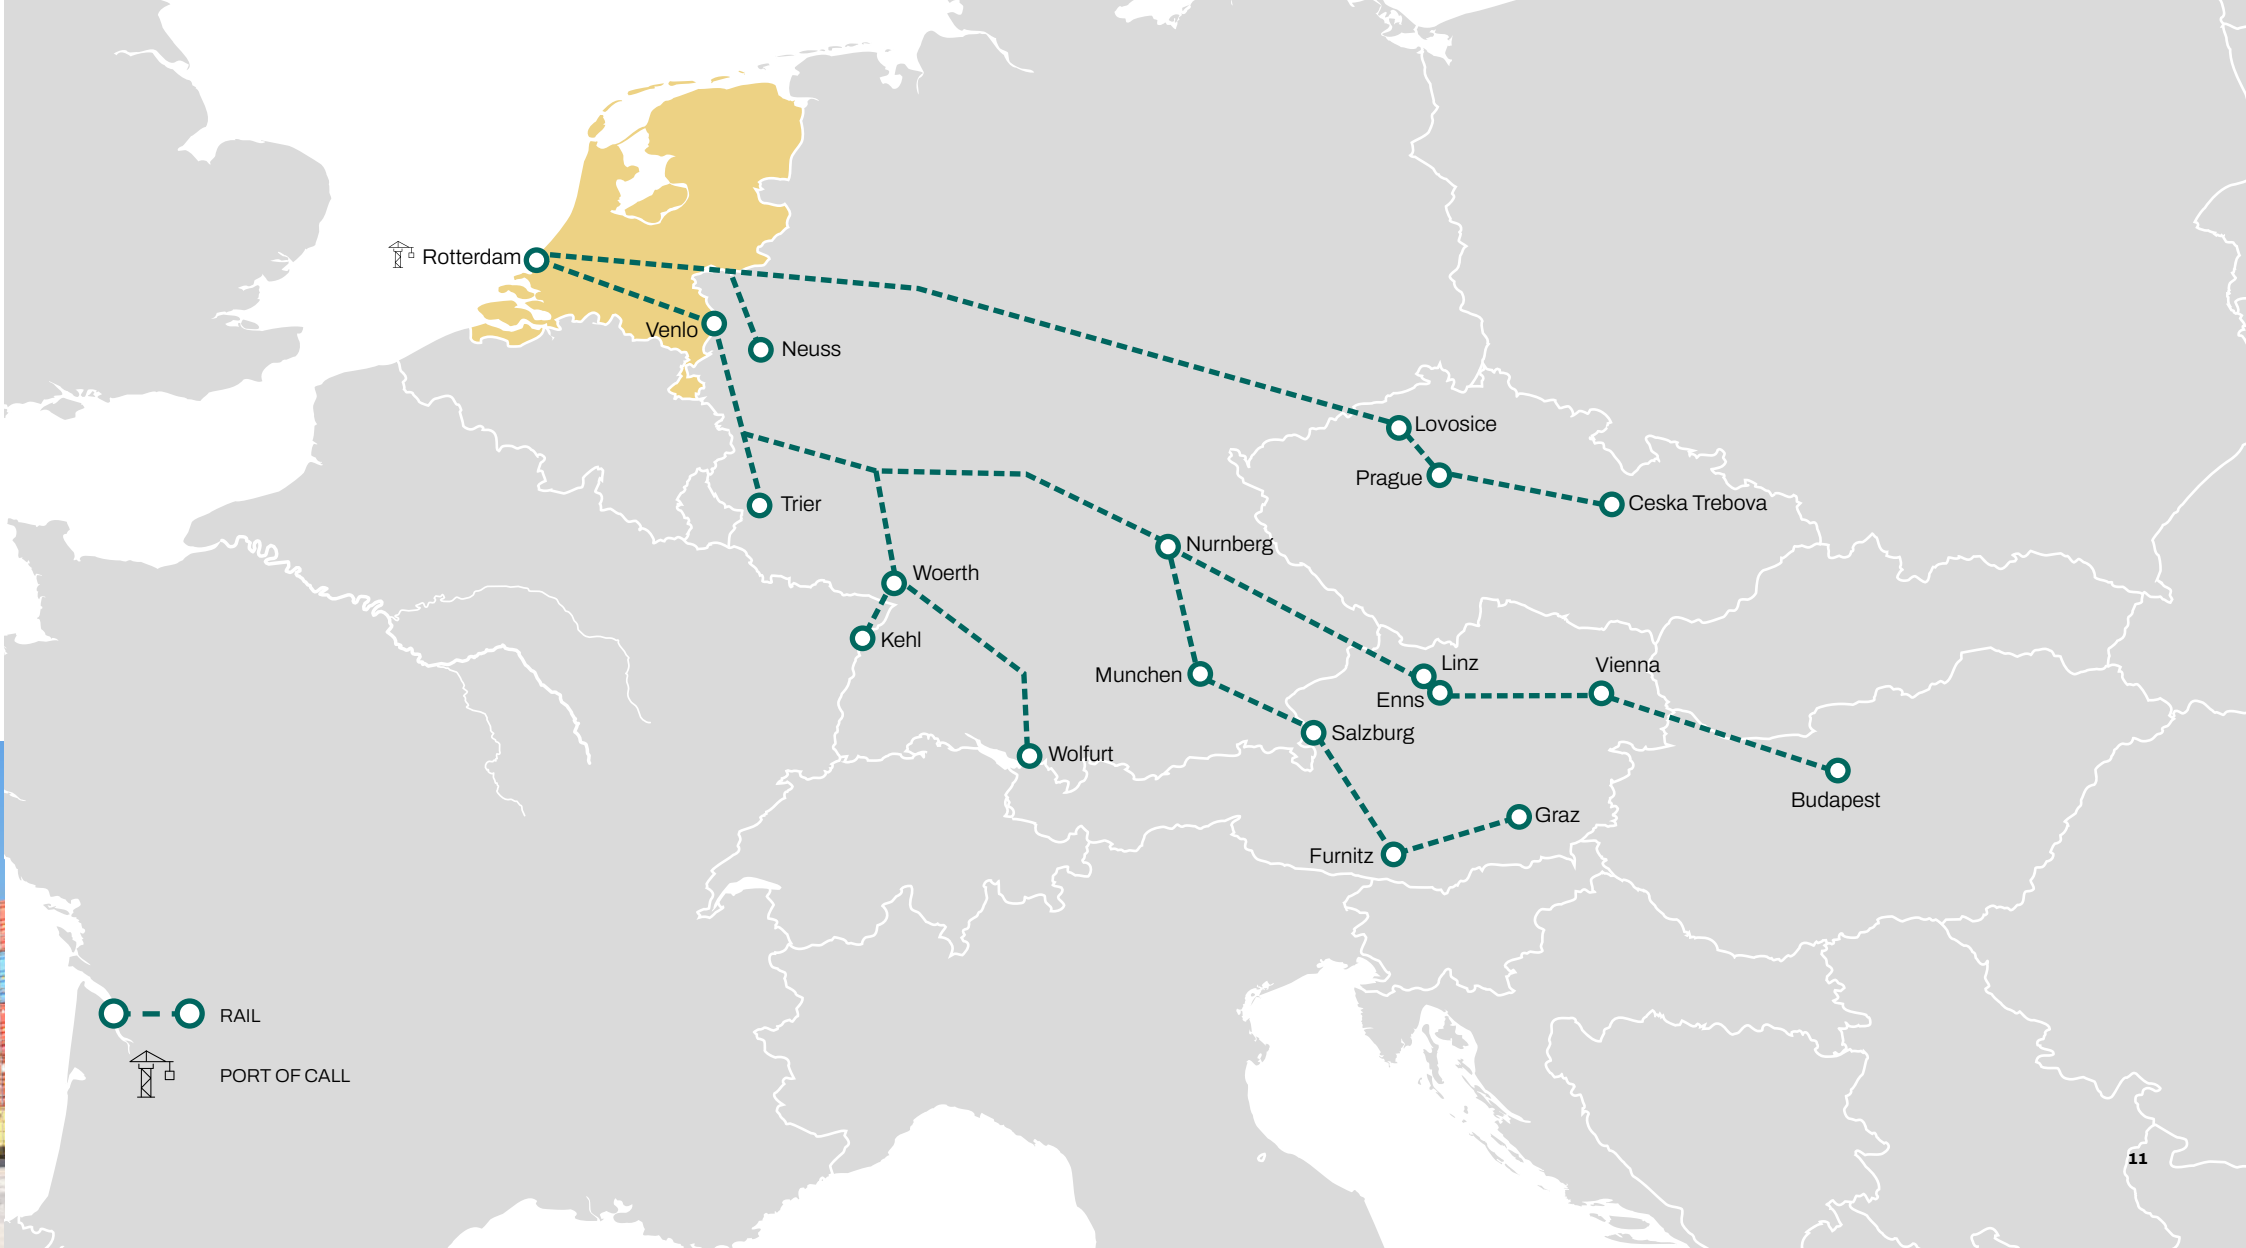

With our extensive inland network, MSC connects major rail, barge, and depot — from **Rotterdam, Amsterdam, Flushing** and **Antwerp** to key inland locations and beyond —providing flexible routing, reliable connections, and seamless cargo flows.

RAIL SOLUTIONS

At MSC Netherlands, we understand that efficiency and reliability are key in every supply chain. That's why we offer integrated door-to-door rail solutions for both dry and reefer containers, in combination with truck and barge, ensuring your cargo is transported safely, sustainably, and on time — for both import and export.

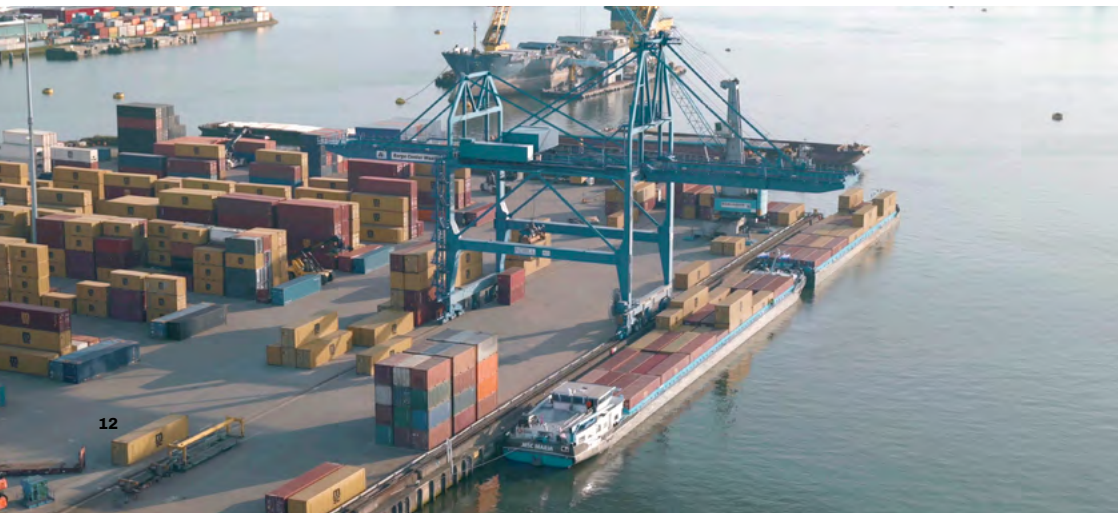

With an extensive rail network reaching across Europe, MSC provides a smart and sustainable link between the Netherlands and key hubs throughout the continent.

BARGE SOLUTIONS

By barge we ensure efficient, flexible, and sustainable connections — from deepsea to final destination. With an extensive barge network connecting the Netherlands and Europe, MSC Netherlands provides a link between local origins and European hubs for both dry and reefer containers.

We offer integrated door-to-door delivery solutions through a combination of rail and truck, ensuring your cargo — whether dry or temperature-sensitive — is delivered to the right place at the right time.

MSC DEDICATED HUB

The MSC's dedicated hub at Barge Center Waalhaven serves as a strategically located extended gate, offering an alternative pathway that enables faster, more reliable deliveries while supporting smooth operations at the Rotterdam, Amsterdam, Flushing and Antwerp terminals.

With extended opening hours the service supports both dry and reefer cargo, offering flexibility for efficient operations. The hub operates 12+ sailings per week, ensuring maximum reliability, reduce waiting times, and excellent berthing availability.

By shifting cargo from road to barge road surcharges will be avoided, idle time reduced, CO₂ emissions lowered, all contributing to a more efficient and sustainable supply chain.

COST EFFICIENT

By optimizing berthing through larger calls at a single dedicated hub

SAVE TIME

Enhance trucking efficiency by reducing road mileage, lowering CO₂ emissions, and minimizing idle time at the terminal

12+ WEEKLY SAILING

Frequent and reliably connecting dry and reefer cargo through seamless multimodal connections

DELIVER PEACE OF MIND

Local MSC experts offer services to customers in the most efficient way

UNLOCKING MORE, WITH MSC'S VALUE-ADDED SOLUTIONS

We understand that every customer's goods are unique, which is why we offer a wide range of enhanced services to suit each stage of your supply chain.

eBL

The electronic bill of lading (eBL) is an original electronic document which offers a more efficient, secure, and sustainable alternative to a complex and costly process. Manage your eBLs in just a matter of clicks!

CUSTOMS CLEARANCE

As an Authorised Economic Operator (AEO) partner, our local team can provide you with quick and efficient customs clearance processing and expert guidance on Dutch customs processes and regulations

SMART CONTAINERS

We know that being able to track and monitor your shipment remotely helps you to plan. That's why we offer Smart Containers for all types of dry cargo, so you can keep a close eye on what matters the most

LIQUID CARGO

From container selection to on-site support for liquid cargo, our solutions streamline operations, reduce risks, and ensure safe, efficient delivery

CARGO INSURANCE

At MSC, we believe that providing customers with peace of mind is a key part of our job. That is why we apply a personalised one-stop-shop approach to cargo insurance

FUMIGATION

MSC's advanced fumigation solution integrates with our carrier haulage and port community systems, ensuring efficient cargo movement and streamlined documentation

MSC iReefer

With MSC iReefer, you get real-time visibility into your shipment's position, temperature, humidity, and overall journey, helping you prevent losses and optimize efficiency
