

MSC SMART CONTAINERS

TRACK YOUR CARGO'S POSITION IN REAL TIME.

MONITOR INTEGRITY AND SECURITY THROUGHOUT YOUR SUPPLY CHAIN.

Looking for 24/7 visibility on your cargo? We equip our units with internet-connected devices to collect live position, temperature and door-opening data.

SECURITY

Real-time insights

Track your cargo from door to door and receive **real-time alerts** when shipments enter a specific zone with our **geofencing** feature.

INTEGRITY

Customized data at your fingertips

From cargo conditions to door openings, you'll receive **customizable and configurable notifications** to ensure you are always kept informed of unexpected events.

VISIBILITY

Optimized supply chain management

Improve supply chain efficiency and streamline decision-making by tracking the position, **condition and transit time** of your cargo **24/7 and in real time**.

MSC Smart Containers are compliant with the '**IoT Standards for Smart Container Connectivity**' of the Digital Container Shipping Association (DCSA).
