SPAIN

WHERE GLOBAL TRADE MEETS INTERMODAL EXCELLENCE

Rooted in a nation whose history and economy have been shaped by centuries of maritime tradition, Spain has long served as a strategic bridge between continents. From the Mediterranean to the Atlantic, the country connects global markets with efficiency, reliability, and a spirit of innovation. As a key logistics gateway linking Europe with Africa, the Americas and Asia, Spain plays a pivotal role in modern supply chains, providing agile and dependable access to international trade routes.

But our commitment goes far beyond the ports. MSC operates the largest intermodal network in Spain, seamlessly connecting 17 ports and 15 rail terminals with major inland hubs such as Madrid, Zaragoza, and Seville. With MSC, your cargo's journey doesn't start or stop at the port. Our fleet of owned and chartered trucks, the largest one in Spain, allows us to seamlessly connect sea, road and rail to keep your supply chain moving while reducing delays, costs and your cargo's environmental impact.

RAIL SOLUTIONS

At MSC Spain, our extensive rail network provides a countrywide coverage, helping you reduce road kilometres and offering a more efficient and sustainable way to move your cargo to and from the ports.

Our inland facilities offer extra hinterland space for port-to-port contracts, allowing us to extend the harbour gates. There's no need to wait for the cargo to reach the harbour to complete the port logistics functions, as they can be performed inland, saving you time.

At our facilities, we offer specialized cargo services, making them the perfect logistics solution for businesses of all sizes and types.
