MSC iREEFER KEY FEATURES

REAL-TIME MONITORING

Track your container's journey in real-time. This helps in reducing the risk of damage or loss and allows for immediate response to potential issues.

TEMPERATURE CONTROL

Ensure that your temperature-sensitive cargo, such as perishable goods, pharmaceuticals, or chemicals, is maintained at the correct temperature throughout the journey.

COST SAVINGS

By preventing spoilage or damage to goods, you can save on costs associated with waste and insurance claims.

INCREASED EFFICIENCY

Optimize your supply chain operations with data-driven insights and predictive analytics.

ENHANCED SECURITY

Keep an eye on your cargo to allow immediate actions and ensure smooth performances.

TRANSPARENCY AND COMPLIANCE

Meet regulatory requirements and provide transparent information to your customers and stakeholders.
